### SUMMARY

A multi-disciplinary programmer with full stack web development experience, looking for opportunities to develop engaging websites for products people need. I'm an idealist autodidact who loves to experiment and uncover the optimal path for each challenge I face.

TECHNICAL SKILLS: JavaScript, React, Express, Ruby, Rails, Node, jQuery, CSS, SQL, HTML5, Bootstrap, C++

OTHER: Video Editing (Avid, Premiere, Avisynth), Unix, Microsoft, Linux, AutoHotkey

LANGUAGES: Hebrew (Native & Fluent), English (Fluent)

### PROJECTS

#### Site Generator

Oct 2017

- Built Website to generate personal pages for visitors.
- Utilized "State" to store user data using React.
- Employed React Router for site navigation.
- Designed an asynchronous recursive function to send all the pictures to an API for remote storage.
- Coded stateless functions to improve performance and memory usage.

#### SoundLand

Sep 2017 - Current

- In progress group project.
- Built a Full CRUD website with user authentication using React and Express.
- Integrated two APIs and user input to research location based musical preference patterns.
- Spearheaded the design pattern for the Database logic, the React interface, and the React Router's final logic.

#### Simon Says

Jul 2017

- Built a Simon Says game entirely out of JavaScript constructors.
- Wrote industry standard ES6 syntax code.
- Developed an elaborate function to flash the colors in sequence.
- Implemented logic to prevent the player from being able to click the buttons as they flash.

### EXPERIENCE

#### **Payoneer, Customer Service - Social Media Specialist, Tel Aviv - New York City**

2015 - 2017

- Developed solutions to automate Representative workflow via scripting processes, reducing customer handle times by 25%.
- Consistently scored over 90% on client satisfaction, reaching approximately 100 clients per day.
- Promoted to Social Media associate, advancing and safeguarding the company brand online.
- Training and mentoring new associates.

#### **Yarden, Inc., CEO, Tel Aviv, Israel**

2012 - 2015

- Initiated a tourist rental business through then-emerging sharing economy websites.
- Expanded from an extra room in a student apartment to 5 directly managed apartments.
- Supervised several employees under direct employment.
- Operated business marketing, logistics, and coordinated with multiple clients and businesses.

#### **Shlomit National Service, Tutor, Acre, Israel**

2009 - 2010

Volunteered at the "Manof" Boarding school for at-risk youth.

#### **Kav Laoved, Consultant, Tel Aviv, Israel**

May 2009 - Jul 2009

Volunteered at a Foreign Worker's rights organization to provide aid to disadvantaged foreign workers.

### EDUCATION

#### **General Assembly Web Development Course**

400 hours of in-class & workshop instruction in full-stack web development. Launch sequence of three full-stack web applications using relevant and in-demand technologies. Apply industry best practices in a collaborate working environment.

#### **Tel Aviv College Courses in C Programming and Data Structures Management.**

#### **Tel Aviv University Courses in Film**

#### **JumpCut Video Editing**
